

REFRIGERATION

Omega refrigerators' super anti-bacterial infused silver technology is a complete system applied throughout the refrigerator, with application to all wall/bin surfaces, gaskets, piping, venting, door seals and deodoriser flow to ensure maximum bacterial and fungal suppression.

The Bacteria Suppression System (BSS) guarantees vegetables, meats and other perishables stay fresher, crisper and tastier for longer.

refrigeration

FBS601S

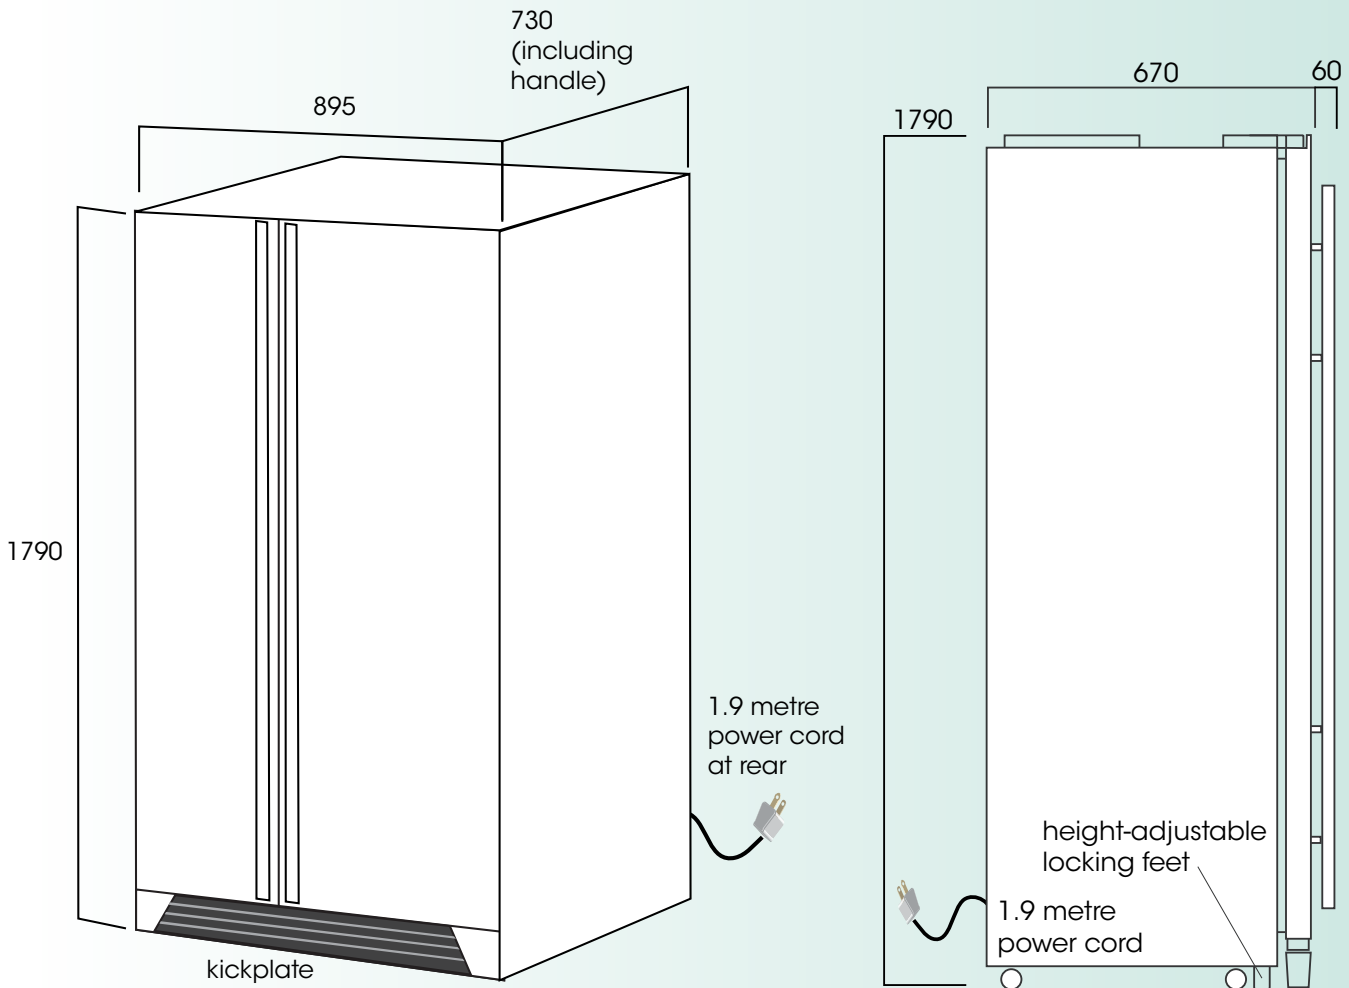

- all stainless steel
- 618 litre (394 litre refrigerator, 224 litre freezer)
- counter depth 610mm plus 71mm rolled edge stainless steel doors
- automatic defrost
- frost free, twin fans
- BSS — bacteria suppression system, fungal-free gaskets
- deodoriser, climate sensor and automatic fan adjustment
- quiet operation, 360° castors, flat-back construction
- safety-glass shelving, deep storage bins, chilled meat keeper
- two large vegetable/fruit crispers
- 1790mmH x 895mmW x 680mmD (excluding 50mm handle)

FBW601S

- all stainless steel
- 603 litre (394 litre refrigerator, 209 litre freezer)
- automatic ice and water dispenser
- counter depth 610mm plus 71mm rolled edge stainless steel doors
- automatic defrost
- frost free, twin fans
- BSS — bacteria suppression system, fungal-free gaskets
- deodoriser, climate sensor and automatic fan adjustment
- quiet operation, 360° castors, flat-back construction
- safety-glass shelving, deep storage bins, chilled meat keeper
- two large vegetable/fruit crispers
- 1790mmH x 895mmW x 680mmD (excluding 50mm handle)

specifications

ECO-FRIENDLY REFRIGERANT

zero rating on ODP (Ozone Depletion Potential)
zero rating on GWP (Global Warming Potential)

NO-FROST TECHNOLOGY

PLEASE NOTE that drawings in this catalogue are not to scale. Specifications may be changed by the manufacturer without notice. It is advised that the product be at hand when measuring for kitchen cabinetry installation to ensure accuracy.
