- > Allows up to 30cm plates
- > Height adjustable top basket when unloaded
- > Rear fold down plate tines
- > Triple filtration system
- > Residual heat drying
- > 850 x 450 x 585 (h x w x d mm)

Dishwasher tip #2

Compact Dishwashers

Did you know?

Dishwashers these days are much more versatile than they once were and the Omega compact series of dishwashers are proof of that.

The 3 featured dishwashers DW101WA, OFI101XA and the DW300XA provide you with an alternative to larger dishwashers where you don't have the space or the opportunity to install a standard dishwasher but gives you the same levels of convenience.

These units are perfect for:

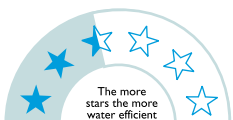

- space saving in a small kitchen,
- if you are renting (DW101WA can be placed on your benchtop),
- bedsits or granny flats where space is limited,
- alfresco areas for convenience,
- adding a extra dishwasher in a wet kitchen.

DW101WA

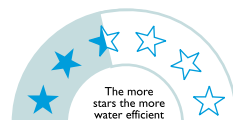

- > Compact white finish dishwasher
- > Freestanding, built-in or benchtop installation
- > LED push button controls
- > 6 place settings
- > 6 wash programs
 - quick 30 min wash 40°C
 - rinse 40°C
 - pots intensive 70°C
 - soak/pre wash
 - normal 55°C
 - heavy 60°C
- > Basket allows up to 25cm plates
- > 2 adjustable cup racks providing a second tier for convenience
- > Rear fold down plate tines
- > Triple filtration system
- > Residual heat drying
- > 438 x 550 x 500 (h x w x d mm)

OFI101XA

- > Compact stainless steel dishwasher
- > Built-in or fully integrated installation
- > Comes with door panel and handle pictured. Can be integrated using own door panel and handle.
- > Concealed & lockable control panel
- > 6 place settings
- > 7 wash programs
 - quick 30 min wash 40°C
 - glass wash 40°C
 - normal 55°C
 - heavy 55°C
 - daily one hour 60°C
 - soak/rinse
 - pots intensive 65°C
- > Basket allows up to 25cm plates
- > 2 adjustable cup racks providing a second tier for convenience
- > Rear fold down plate tines
- > 1-24 hour delay start
- > Triple filtration system
- > Residual heat drying
- > 475 x 590 x 500 (h x w x d mm)

Omega has an inspired solution with a new range of dishwashers which are designed to be both sleek and functional while offering excellent water efficiencies. With Omega's proven performance to quietly and efficiently clean your dishes, you will find an Omega dishwasher to perfectly integrate into your kitchen and your lifestyle.

cutlery tray

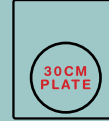

The functional cutlery tray is cleverly designed to take full advantage of the separate jet spray arm in the top of the dishwasher to maximise cleaning efficiency.

The tray keeps cutlery separated and is angled to drain away any residual moisture to avoid spotting, leaving them with a perfect clean finish. The tray is easily removed to make more room in the top basket, still allowing you to use the secondary cutlery basket in the lower section.

dualzone

DualZone adds another dimension to dishwashing. With three powerful jet spray arms located on the roof, middle and bottom of the dishwasher, DualZone gives you the option of washing just the top basket, just the bottom basket or an entire load. The top basket wash is perfect for smaller loads, like breakfast plates, glasses and cutlery. The bottom basket wash is great for larger items such as pots, pans and plates. This function can be used with any wash program and makes your Omega dishwasher even more versatile.

30cm plate capacity

With Omega's adjustable top shelf set in the high position your dishwasher can accommodate up to 30cm dinner plates with ease. That's Omega flexibility.

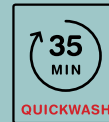

half load wash

There's often times when we need to run the dishwasher even if it's not fully loaded. This means using power and water in excess of our needs. These Omega dishwasher models solve the problem with a clever half load function option. This is designed to save you time, energy usage and water while still performing a thorough dishwashing cycle for a great result.

adjustable top basket

To give you full control of your loading options, Omega dishwashers feature a very convenient and easy to use height adjustment for the top basket. No need to unload or remove and reposition the basket, it's simply a click of the side levers and your top basket can be lowered to accommodate taller items or raised to a normal position for maximum space in the bottom section. That's Omega convenience.

quick wash

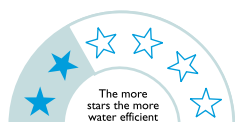

For times when your dishwasher is loaded with plates, glasses etc that just don't need a full wash cycle to be completely clean, Omega dishwashers have a quick 35 minute wash that does the job beautifully. That's Omega innovation.

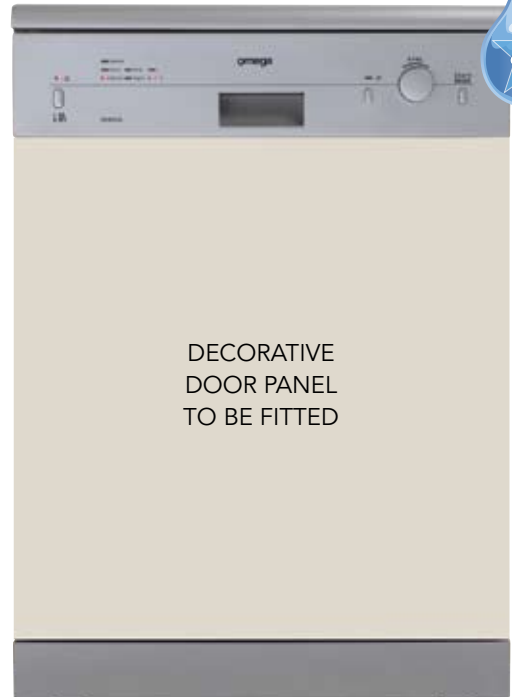

DW2006X

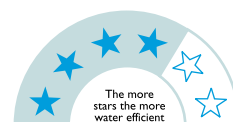

- > 60cm stainless steel dishwasher
- > Freestanding installation
- > Manual knob control
- > 12 place settings
- > 5 wash programs
 - delicate 45°C

- > Height adjustable top basket when unloaded
- > Rear fold down plate tines
- > 1-24 hour delay start
- > Triple filtration system
- > Residual heat drying
- > 825 x 600 x 544 (h x w x d mm)

Dishwasher tip #1

Keeping your dishwasher clean

There are a number of ways to maintain the interior of a dishwasher.

- Pour a cup of vinegar into the bottom of the dishwasher and run an empty load. This will help to clean out any old food particles and to keep your dishwasher smelling fresh.
- Clean the spray arms and filtration system regularly. Your manual will provide details of how you should do this. This process will help avoid food being trapped in these areas for long periods of time.
- Wipe down the seals of your dishwasher occasionally with a damp cloth. This will help maintain the longevity of your dishwasher.
